HANDGUNS

HANDGUNS is America's only small-arms media property dedicated to the all-around handgun enthusiast. It's core mission is to emphasize the proper use and selection of handguns for self-defense and sport shooting. For marketers, Handguns represents a super-efficient buy for anything from esoteric shooting supplies to pickup trucks and SUVs...and everything in between.

Take Advantage of this diverse, active and influential consumer by leveraging the synergies of the Handguns brand

Independent Research by Dynamic Logic and Millward Brown confirmed that the most effective approach to driving consumer 'purchase intent' is to rely on media synergy to best drive results. Key revelations from 32 studies conducted from 2003 through 2007 include:

- Three media were better than two, and two media were better than one in generating results.
- The combination of TV and magazines provided more response (versus TV alone) than did TV plus online.
- Print was the most effective in driving online traffic — and that traffic increased considerably when URLs were included in advertising and marketing messages.

Shooting and the American Consumer*

While mainstream marketers often misrepresent the shooting enthusiast and the media that serves them as niche, or as having undesirable connotations, the reality is that these consumers represent a powerful and deep cross-section of American consumers. Key facts about this influential market include-

- 43% of U.S. households own firearms, representing over 200 million guns.
- 20 million individuals take part in competitive shooting in the United States — and the 2016 Summer Olympics featured 15 different shooting events for both men and women.
- Over 1.4 million Americans used firearms in their line of work — including law enforcement and military personnel.
- The U.S. firearms industry includes approximately 200 companies employing about 15,000 individuals with annual revenues in excess of \$2 billion.
